A Mysterious image from a Hindu religious book hides the roots of an Ancient Undiscovered Science, which despite being in constant view of the general public and religious scholars, remained undecipherable for several thousand years. But the message hidden in that image answers lot more questions which the modern science & religious stakeholders may never be able to face. For example, the Inefficiency of Medical Science has brought mankind to the emergence of Super Bug. What did they forgot to consider? Why God created deadly micro-organisms when he loved human beings so dearly? Why Hinduism was forcibly pushed into Vegetarianism when they already had rituals of Sacrifice for many deities like Goddess Kali? Why did God create so many Religions when he knew there WILL be communal conflicts in his name? Finally, where the Creator might be hiding? Yes! We've the answer at last! There is a single string that connects all the diverse & unexplainable dots mentioned

above and many others. And there is an undiscovered hidden system active under our noses all the time which always works behind the curtain to dominate life & times of all beings in all eras. To your surprise, this book brings you face-to-face with that hidden force which the science (and religion alike) will never be able to explain. A mysteriously simple concept, that precedes Ultra-modern Science & Age-old Religion, discovered thousands of years ago by some Unknown Mystic. Be the witness to an unauthorised journey into the forbidden territory of religion leading to the surprising discovery of The Laws of Ethereal Universe. It's time for Humanity to wake up or get eliminated!! To cross-validate our derivations, our journey trespasses through a number of fields and tries to answer those questions that remained unresolved till date, staring the face of most educated scholars from both Science & Religion.
