

# **Diseño de iluminación en Iberoamérica**

## **Baixar (PDF or ePub) Luis Juan López Barreiro GRATIS**

Iluminet compila en este libro los 55 proyectos más destacados del diseño de iluminación arquitectónica en Iberoamérica. Se encuentran divididos en varias categorías: centros culturales y educativos, espacios comerciales, hospitalidad, residencial, oficinas e instalaciones. Las páginas finales reúnen información útil como un directorio de los estudios participantes y un listado de las luminarias utilizadas tomado directamente de la información que envió cada despacho.

Nuestro propósito es dar difusión de los proyectos, pero también deseamos dejar un testimonio físico. Las Bienales son un vistazo a las prácticas de iluminación arquitectónica que están sujetas a cambios con el pasar del tiempo. Así como cambia el vestido, la arquitectura y la tecnología, con los años también cambia la luz. Con el paso del tiempo, las Bienales se convertirán en una narración de las transformaciones que ha vivido -y vivirá- el diseño de iluminación en Iberoamérica.
